

Number Writing Practice

We need some practice writing our numbers neatly. Write each number neatly. Use the rhymes for each number if you need help remembering.

Go around and be a hero, that's the way you make a zero.

Straight line down and then you're done, that's the way you make a one.

Around and back on the railroad track, two, two.

Around a tree, around a tree, that's the way you make a three.

Down and over, down once more, that's the way you make a four.

Over, down, and around; number five is like a clown.

A stick and a hoop, do the tricks; that's the way you make a six.

Across the sky and down from heaven, that's the way you make a seven.

Make an S and do not wait, go back up and make an eight.

A loop and a line, that's a nine.
